

SSC 420 Clinic - May 31, 2008

This clinic will be open only to intermediate/advanced C420 sailors that have competed in at least 3 regattas in 2007. Proper wear (dry suits or wetsuits) will be mandatory along with proper fitting PFDs.

Registration and starting time will be 8 am, with all boats to be launched prior to our classroom start at 9 am. Chalk talks and drill description will be thoroughly discussed prior to going on the water.

Lunch will be provided on shore to facilitate continuation of the chalk talks and discussion, prior to resuming drills and/or racing. We will also be discussing rig tuning and proper set-ups in regards to wind/weather/waves.

Cost will be \$25 (includes lunch) per team of two and please bring your own C420 ready to rig and launch. Your application for registration will be emailed to:

Park@Quikspray.com In the subject line, please state C420 clinic registration.

Include the following information: Complete names and typical position sailed (skipper or crew), parents' cell numbers and mailing addresses, 3 best finishes of 2007 in a C420.

I apologize for not including beginner class C420 sailors, but considering the early season water temps and potential wind velocities, we will only host this to qualified sailors.

If there are any questions, advise: Park McRitchie, 419-656-1595, Park@Quikspray.com
