SCORING

The object of the Chicane is to start in a forward direction, go though the course, make a 360° turn, and back down to the finish without creating a wake or hitting any mark. You will be timed for the entire time it takes to go from Start to Finish.

F = Forward
R = Reverse
P = 20 seconds for hitting a mark, or for each wake detected between any two marks.
Total time plus penalty will be your score.
